

Section 3: Completed after lesson observation by class teacher prior to Post Observation Meeting

Lesson Reflection (to be completed after the lesson by class teacher)

What worked well? How did I know? What could be improved? How?

Scott felt that he could have linked to the next lesson better and discussed how an image could be incorporated via URL in the CSV file.

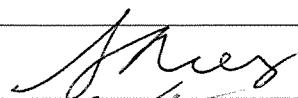

Questions/points that arose from the lesson for discussion at post observation meeting:

Discussion on how this lessons fits into the sequence of lessons and how best incorporate it into the program as a more advanced lesson idea.

*- Possible parity with other objectives & development
of others*

Future directions for progress towards teaching goal: As we continue to develop software engineering this lesson and adding an image lesson to the database will be incorporated into the program for 2025.
